## SCHOOL BOARD PROTESTS PARK

Raises Objection to Lake Shore for Baseball

BOARD UNANIMOUS

Say Games Will Hinder High School Work

The school board has raised its voice in protest against the proposal to lease a tract on Lake Shore drive to the Port Arthur Athletic association as a ball park.

Two reasons were given out today by Secretary L. B. Abbey for the school board's objection taken at the meeting last night.

The Objections

1. Commercial games starting in the afternoon will seriously affect high school work.

2. The value of the civic beauty of the locality will be destroyed.

This is the first formal protest that has been received from any organization since introduction and passage of the ordinance calling for the election to lease the park. The election already has been called and will be held March 25.

Board Unanimous

Members of the school board were unanimous in the protest. Abbey said this morning. Members of the board present included President D. Hutcheon, A. S. Bailey, Joe S. Park, C. R. Evans, H. O. Preston, J. G. Glasgow and Mrs. E. A. Young. George M. Sims and Secretary Abbey also were present.

Lions 'Ladies' Night' to Be Scrumptious Affair

A roaring time will be had by the Lions and their ladies at the Plaza hotel Friday night at 7:30 when a "Ladies' Night" function will be given.

C. B. Keever, chairman of the entertainment committee, announced today. Details of the program arranged by the committee are withheld to surprise the Lions, he said.

The hour for the function was originally announced for 6:30, but this has been changed to 7:30. Keever said. Covers for about 100 Lions and their guests will be laid for the dinner.

COMMITTEE BUS PLANS ADOPTED

Through Service Demanded; 'War' Plea Fails

The bus line to belt the northern part of the city, supplanting "that street car line which should have been built many moons ago" moved nearer to an actuality this morning.

A proposed route, rate and service was accepted this morning by Chairman J. J. Harrell and his committee at a meeting between the triangular interests, citizens, but line and city.

Citizens Protest

But the proposal was not accepted quite as peacefully as this is phrased. There was a demand for through service to take from 2,000 to 4,000 men to the refinery.

"What we want is something that'll take us to work," was the plea.

Then somebody suggested a war on the street car company. This topic, so far subdued, has been one of the keynotes of all these little gatherings held by citizens of Thirteenth street community.

"Let's make the street car company do something now while we've got a mayor who'll fight them; don't wait until we get somebody in there who hasn't got the backbone," another member of the committee suggested.

Can't Compete

Conservation was the plea of the city, however, and the citizens were told that it would be futile to start such a war on the trolley company; it was pointed out to them that their best bet was the bus line as a temporary proposition.

It was also explained that the city could not grant a contract to the bus line that would make it a competitor of the trolley car company.

The proposed route to be taken by the bus line starts at the federal building, going to Thirteenth on to Waco and up Thirteenth to DeQueen east to Tenth to Beaumont, then to Fifth and back to the federal building.

The rate will be approximately that charged by the trolley car company and the schedule will be between 20 and 40 minutes.

TRASH FILE FIRE

Fire in a trash pile in the 500 block on East Fifteenth street about 10:30 a. m. today caused the fire department out. No damage was done. Fire officials reported, and the blaze was put out with the chemical extinguishers.

### EX-CHIEF OF VET BUREAU IS DEAD

C. F. Cramer Believed Suicide by Police

QUIT IN 'SHAKE-UP'

Had Been Severely Criticized By Legion

By United Press.

WASHINGTON, March 14.—Charles F. Cramer, general counsel of the veterans bureau until a few weeks ago, was found dead in his home here today.

Police believe he committed suicide. A bullet wound was found in his head and a revolver was in his room.

Cramer, who was severely criticized by American Legion officials, resigned from the bureau during the shakeup of that government agency caused by the action of the senate in ordering a complete investigation of charges that veterans relief was being badly administered.

Cramer's chauffeur heard a shot in (Turn to Page 2, Column 2)

### ORANGE ROAD IS BEING HELD UP

Ouster of County Engineer is Talked By Citizens

ATLANTIC CUT OFF

Charge Made 'Someone Trying to Steal' New Industry

Unless immediate action be taken looking toward the completion of the Orange road to protect Port Arthur's interests in seeing that the new Atlantic Refining company is served by a proper highway a determined fight to oust the present county engineer is not improbable.

This was the sense of several indignant Port Arthur citizens who met this morning in the Chamber of Commerce to learn why the county was not co-operating and pushing the road.

Hughes Tells Difficulties

Commissioner Charles Hughes was present at the meeting and explained the difficulties he had met with and was continually meeting with in trying to get work done on roads in his (Turn to Page 2, Column 2)

### School Board May Come to Rescue in Library Deficit

Favorable Sentiment Voiced But Any Action Will Be Deferred Until April Meeting, Indication

The city library shall not be closed. This is the sentiment of the school board which last night heard City Clerk E. H. Miles discuss city finances.

While no immediate relief was offered to Finance Commissioner A. A. Potter's \$8,000, following the discovery that the library fund had been exhausted, Secretary L. B. Abbey was instructed to "keep in touch with the situation."

It is not unlikely that some step will be taken at the April meeting of the school board should conditions not be remedied at that time.

According to Secretary Abbey, City Clerk Miles explained the heavy delinquent taxes as being responsible for the city financial condition. The proposal that the school board meet half of the \$700 deficit, which represents the sum necessary to operate the library through this month and pay last month's bill, was entertained by the board but no action taken.

Approximately 200 students make use of the library every day, Secretary Abbey estimated.

### COUNTRY CURS CAN CONTINUE CHASING CITY DOGS SOLONS

By United Press.

AUSTIN, Texas, March 14.—Country curs can continue chasing and otherwise chastising their city cousins.

The Texas legislature refused to interfere in the feud between country dogs and city dogs, the "jolly hounds" and "lap dogs" of the state, as far as the state solons are concerned the latter can continue to be made to live a dog's life.

An amendment by Representative Green to the state dog bill, which seeks to protect sheep and goats and domestic fowls from vicious dogs, would have made it also against the law for the rural canine savages to bother city dogs. It was defeated.

### GAS COMMITTEE IN SECRET MEET

'Star Chamber' Session Tonight at C. of C.

At 7:30 tonight doors of the Chamber of Commerce will be drawn tight—so far as newspaper reporters are concerned.

Sh-h-h-h! The citizens gas committee and the city committee are going to discuss the gas situation.

Eleven hundred gas consumers have a paying interest in what will take place at the meeting.

Mayor Logan tomorrow probably will give out the results of the session to the press.

Everybody knows the status of the gas situation today. The city has drawn its artillery right up to the line and is ready to fire away with the final reading of the \$225 ordinance.

F. V. Low, manager of the gas company, has his big guns polished and listening. They're ready to be touched off the minute the city commission gives the signal by passing that \$225 ordinance without "rules and regulations." Low says he'll go to court.

This gas meeting tonight is just another of the score of "crises" in the gas fight situation which have been threshed out here for the past four months.

### CITY SCHOOLS NOT TO CLOSE UNTIL JUNE 1

City schools may not close until June 1.

The original program called for the closing about May 26.

Last December, however, students were given an extra week holiday to allow teachers to attend the district institute at Beaumont.

At the school board meeting last night Secretary L. B. Abbey was instructed to check finances and to extend the term one week, or to June 1, if it could be done.

## ORANGE ROAD IS BEING HELD UP

(Continued from Page 1)

Henry Lohman, chairman of the chamber good roads committee, and one who has taken a great deal of personal interest in road work of this precinct, explained to the members present several cases of ineffectual delay on the part of the county engineering department and how Hughes, who was in charge of the work, was hampered in his work.

The committee was informed that unless some action was taken on the Orange road at once there was every possibility that the county club road might be put through and force the Atlantic Refining company to go seven and one-half miles out of its way to get to Port Arthur.

"In other words," declared one member, "some one is trying to force the Atlantic Refining company to go seven and one-half miles out of its way to get to Port Arthur."

It was pointed out by Lohman that the county engineer is away behind his road work for this precinct while other precincts nearer Beaumont had practically completed most of their work.

The present Orange road is being held up, it was explained, due to the desire of certain property owners to force the road in another direction and through their own property, thus benefiting by the increased value of the land.

In case a right of way leading toward the Atlantic property is not secured the committee was advised to seek condemnation of a 50 foot strip from the Dryden road toward the Atlantic line, thus covering the refinery of a suitable highway.

Atlantic officials desire a 90-foot right of way paralleling the Kansas City Southern tracks, running north and south from the Dryden road to their property. It is felt that a 40 foot right of way is not sufficient and they are asking 10 additional feet from Henning and Gilbert on one side and the Tyrrell tract on the other.

Its owner is no longer alive and the detective first assigned to the case was shot and killed in 1918 by a negro bandit. No arrest has been made, but the detective department promises that the watch is to be turned over to the nearest relative of Charles Turner, a former assistant district attorney.

## ROUTH TO FIGHT CLAIM BY GIRL

King of Swat Declares Suit is Blackmail

NEW YORK, March 14.—Rube Routh, baseball's slugging ace, will fight the \$50,000 damage suit started against him by the matron Miss Dorothy Dixon, 18, "the limits" Hyman Bushnell, attorney, declared today.

"Rube is a fighter and will fight this case," Bushnell said.

"He will do a public service," alleged Routh's attorney.

George Finburg, Routh's attorney, declared that the papers in the case will be filed today, and in the meantime, the girl, who has disappeared from a recent address, will remain in seclusion at his advice.

Alleged auto rides taken by Routh and the plaintiff, who claims to be an orphan, in the former's car, are described in the complaint, according to Finburg. The plaintiff claims she is to become a mother and, according to her attorney, charges that Routh is the father.

## Doesn't Know Her Claims

A "blind summons" was served on Routh last November 12, it became known today. According to Routh's attorney, he was urged several times to "settle out of court and avoid publicity."

"Ruth doesn't even know the girl," Bushnell declared, letting it be known that the home run king has assigned attorneys to his case, "to find out who the girl is."

## WIFE BACKS RUBE IN FIGHTING CASE

NEW ORLEANS, La., March 14.—Rube Routh and his wife joined today in a defy to the suit started against the slugging ace of the Yankees alleging an attack.

"We will fight to a finish," Mrs. Routh told the United Press and the Tribune vigorously nodded assent.

"It's an effort by this person whom I have never heard of to extort blackmail from an innocent victim and we are ready to fight the suit to a finish," Mrs. Routh declared.

"I am certain that my husband is innocent of any wrongdoing and that the whole charge is one trumped up by a mercenary woman bent on doing Rube financial harm and injuring his popularity with the public."

Mrs. Routh and her baby are with the home run hitter at the spring training camp of the Yankees.

Cat War Depletes Ammunition—Wants City to Buy

"Kill the cats" cry has been taken up day and night from one end of Port Arthur to the other since two cats afflicted with hydrophobia were among the 11 killed in the 300 block on Ninth street recently. Poundmaster Allen reported to the commission Tuesday afternoon.

"We're going to have to quit killing cats, though, unless the city furnishes me with shot gun shells for the work," Allen told Commissioners Wade and Poteet.

"The city has furnished me with one box of shells and I've bought all the rest," he said.

"This is a matter directly in the mayor's department," Commissioner Poteet told the poundmaster, and suggested that he bring it up at the meeting Wednesday.

"The cats ain't going very much madder between now and tomorrow," Commissioner Wade assured Mr. Allen.

"Kill the cats" cry has been taken up day and night from one end of Port Arthur to the other since two cats afflicted with hydrophobia were among the 11 killed in the 300 block on Ninth street recently. Poundmaster Allen reported to the commission Tuesday afternoon.

"We're going to have to quit killing cats, though, unless the city furnishes me with shot gun shells for the work," Allen told Commissioners Wade and Poteet.

"The city has furnished me with one box of shells and I've bought all the rest," he said.

"This is a matter directly in the mayor's department," Commissioner Poteet told the poundmaster, and suggested that he bring it up at the meeting Wednesday.

"The cats ain't going very much madder between now and tomorrow," Commissioner Wade assured Mr. Allen.

## ARSENIC WOMAN GETS LIFE IN PEN

### Second 'Bluebeard' Goes On Trial

CHICAGO, March 14.—Mrs. Nellie Klimek, second of the alleged "bluebeards," will go on trial March 24, on charges of murdering her first husband, John Sturmer.

Sturmer was one of the victims of an alleged wholesale poison plot, planned and carried out by Mrs. Klimek and Mrs. Tillie Klimek, the state charged.

Mrs. Klimek was sentenced to life imprisonment for the murder of her third husband, Frank Kupczyk, by a jury last night after a 10-day trial.

She was the first woman in the history of Chicago to be given a life sentence for murder. Fifty women have been tried for murder in Chicago in the last fifty years but only five convicted. These received minor sentences.

Mrs. Klimek was apparently indifferent to the verdict. Hearing on a motion for a new trial will be held Saturday.

## JURY TAMPERING CHARGE PROBED

### Aftermath of Smalls Acquittal Before Grand Jury

WAUKESHA, Ill., March 14.—Evidence gathered in an investigation of alleged tampering with jurors in the trial of Governor Len Small was prepared for presentation to a grand jury today. The governor was acquitted of charges of conspiracy to misappropriate large sums of state funds after a six months' trial.

A. V. Smith, prosecutor of Lake County, in a secret investigation covering a period of two months, has questioned scores of numbers of the venire summoned in the Small trial.

The probe was launched when a Chicago labor leader declared that a rival was paid \$50,000 to "fix" the jury.

Judge Clairie Edwards, in whose court the trial was held, said he had been informed the investigation was under way but that he had no official connection with it.

Most of those questioned by Smith were veniremen who were excused from serving on the jury when examined.

The jury which sat in the governor's trial returned a verdict of not guilty after a few minutes deliberation.

## DICTATOR LENIN HAS A RELAPSE

### Partly Paralyzed, Condition Alarms Moscow

MOSCOW, March 14.—All soviet Russia awaits anxiously each day the official bulletin, issued by the government, that tells of the condition of Premier Nikolai Lenin, who has suffered a serious relapse and is partly paralyzed.

The Russian leader, once referred to as "dictator," but for over a year an extremely sick man whose valued counsel was sought only on the most important matters of state, has been growing weaker since about the first of December, 1922, an official communique said.

Lenin, after a year's illness, returned to his duties October 3, 1922. Within two months, he began to show signs of exhaustion and was ordered to take a long rest, forbidden even to see the newspapers. Only such questions as those of education and workers' inspection were referred to him. Lenin, always the strictest of disciplinarians, obeyed the doctors' orders, and was again on the mend, but within the last few days suffered a relapse so serious the government considers daily bulletins a necessity.

John Raper, the parent, did not want to get home.

A young lady told her husband seems to think she signed up for love, honor and no pay.

## 'BE GOOD' WAILS THINLY CLAD CO-ED AS INSPECTING SENATOR TRIES DOOR TO HER BOUDOIR

### Cupid, Begone!

CHICAGO, Colo., March 14.—This story might be titled, "Fifteen Senators in a College Girl's Room."

The setting was at a Colorado State Teachers college during a recent inspection of the institution by members of the legislature.

The visit, from the lawmakers' standpoint, was uneventful, but there was one wise remark when he heard a message broadcast by a thinly clad girl struggling with the door knob of a clothes closet. That wireless message was, "Senator, be discreet."

The party of lawmakers was being conducted through Bedford hall. Their guide chose one of the rooms in this women's dormitory as an example and flung wide the door for the senators to enter.

In the tenth part of a second a fleeting form of pink and white streaked across the room and into a clothes closet. Behind the door she crouched with palpitating heart. Bravely, desperately, she clung to the doorknob.

Into the beautiful bedroom snatched the legislators, indeed, a glimpse at mildly co-ed's boudoir would be a rare pleasure. The occupant was out, but here and there they noted articles of feminine unmentionables.

In the stuffy clothes closet the frightened girl heard favorable comment on the tidiness of her room and she prayed fervently for them to "beat it."

One curious senator then thought he'd like to see the clothes closet and he strode to the door and wrenched the knob.

One or two more hearty shakes seemed to tell him the door wasn't locked and he pulled at the knob a little more firmly. Then he seemed to hear:

"SENATOR, BE DISCREET."

He was. Right away he led his gang out of the room and gave the lady the right of way.

Ruth, ball player, is trying to come back because he got into the first three letters of his name.

## WOMEN'S CLASS BANQUET WOMEN'S CLASS AT CHRISTIAN CHURCH RESULT OF ATTENDANCE CONTEST

ATTENDED with many pleasant surprises and delightful informality, the banquet tendered the Women's Class of the Christian church last evening by the Men's Class, as the result of an attendance contest, was one of unusual delight and success.

All arrangements for the banquet were guarded with the strictest secrecy by the men, who had only announced that the men's assembly at the church at 7:30 o'clock. At the appointment, President A. H. Metz of the Men's Class announced arrangements had been made with a downtown sandwich stand to serve hot sandwiches, and that the ladies should form in line of march, and proceed immediately to the church stand.

When the marchers found themselves at the end of the line, they discovered themselves seated in the dining room of the New Lakeview hotel, with not a sandwich in evidence, but with tempting delicacies on the attractively decorated tables. The surprise was complete. Edmund Rogers, son of Mr. and Mrs. K. C. Rogers, directed the music, and the marchers entered the dining room, and played numerous victorious tunes during the evening.

The appetizing menu consisted of chicken, dill pickles, celery, sliced potatoes, gravy, potatoes with peas, English peas with carrots, baked salmon with mayonnaise, white rice, bread, silver and nut cake, coffee, tea, and milk. After the dinner, an entertaining program was rendered with Dr. William Oeschger as toastmaster. The opening remarks were made by President Metz, and several musical numbers were rendered throughout the program by the Apollo quartet, composed of C. E. Jordan, Jr., Earl J. Jordan, W. E. Taylor, and E. S. Griffith.

An address by Rev. W. E. Blacklock of the First M. E. church was exceptionally interesting and full of valuable suggestions for both sexes. "A vocal solo, 'Ma Cully Headed Baby,' by Mrs. J. L. Singletary was enthusiastically received by the guests, and she responded with a fitting melody. Piano accompaniment was given by C. N. Bier.

"Mr. Van" from "La Sonnambula," the violin selection played by R. M. Johnston was one of the enjoyable features of the program, and Mr. Johnston was heartily cheered. Mr. Bier also played piano accompaniment for Mr. Johnston.

A beautiful bass solo, "Over the Hill Away Deep," was sung by J. H. Baxter, whose deep voice was well suited to the composition. Mr. Baxter also responded with an encore.

A short talk was made by Dr. Oeschger, following which the program concluded with a song by the entire assembly, led by Mrs. Carl T. Long.

As the final surprise of the evening, Mrs. K. C. Rogers with a few appropriate remarks presented the president of the class with a bouquet of American Beauty roses. She commended the class on having such an able and efficient president.

In making arrangements for the banquet, Mr. Metz was assisted by H. W. Parks, secretary; H. T. Whitson, T. W. Rodgers, and Carl T. Long, to whom much credit is due for their success.

Those enjoying the event were Mrs. H. A. Metz, Dr. and Mrs. William Oeschger, Rev. William Blacklock, Mrs. W. P. Inman, Mrs. R. E. Funk, Mrs. G. G. Shackelford, Mr. and Mrs. E. ## FORMA TALMADGE'S Manners

Letters afford an opportunity for evidencing culture and charm that never should be neglected. The written word never should be careless, for it usually is accepted literally and it may endure for ages. There is no gesture, no inflection, no smile to help interpret the line one pens. If a letter be anything but good-tempered, it had better never be written.

**TOMORROW: Etiquette of the Table**

**LETTERS**  
1: Invitations, acceptances, regrets and other social notes should be penned, never typewritten.  
2: Written words are a poor medium for the expression of emotions, whether they be anger, love or what-not.  
3: No woman should ever write to any man a letter that can be construed as foolishly sentimental or that implies intimacy.  
4: No man ever should write any letter in which there could be the slightest intimation that he has received special favors from a woman.  
5: Everyone should keep in mind that whatever he writes may fall into the hands of someone other than the one for whom it is intended.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common as iden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant, and,

## SORROW: You Can See a Lifetime's Sorrow Mirrored in the 19-Year-Old Eyes of This Armenian Girl

MRS. ELISILA SHAHAN, SHOWING BRAND ON HER FOREHEAD

BY ROY GIBBONS  
NEA Staff Correspondent  
CHICAGO, March 14.—Though she is scarce 19, the sorrows of a million years peer forth from beneath the long silken lashes of Mrs. Elisila Shahan.

For in her brief span of years she has undergone almost unbelievable tortures. She has been forced to see relatives murdered.

HELD captive in the harem of an Arab sheik.

BRANDED about the face with marks she can never remove.

THROWN bound into a river to die.

THREATENED continually with death and only forced to mount a scaffold to be hanged.

Starts Life of Sorrow  
"It was 11 when these terrible things began to happen," Mrs. Shahan told me.

"Turks came to our little country place at Atum Karabassan, Asia Minor, and deported me with my family. My granduncle was stoned to death.

"The other men of the village were taken into a valley, and before the very eyes of their womenfolk, were riddled with machine-gun bullets.

"I was one of 250 girls tied together with a long rope and thrown into the Euphrates, to drown.

"Some Arabian women swam into the stream, cut the rope and saved me with three others. They sold us in a slave market. I was bought by Edinck, a robber chief.

"Edinck had 12 wives and 47 children. He made me care for the children. He and his followers tried to make me turn Mohammedan. I would not. So they gave me only dog-meat to eat and nothing to drink.

Condemned to Death  
"Finally Edinck condemned me to death. I was led to a roof where there were six Armenian priests.

Arabs were digging out their eyes, breaking their arms and pulling out their fingernails.

"Then I faintly. When I awoke, I escaped under the cover of the darkness. I was captured and dragged back, fastened to a horse's tail, to Edinck.

Mrs. Shahan finally was rescued by British soldiers and taken to Smyrna.

Today the idea of a sheik as a lover, held by many American girls, is not shared by Mrs. Shahan. She finds the prosaic candy shop of her husband here far preferable to the romantic 'love' of any sheik beneath the desert moon.

ENGLISHMAN SEEKS BROTHER IN U.S. ARMY  
CHICAGO, March 14.—A letter addressed to "The Commanding Officer, Fort Laramie, Wyo.," has been received by the commanding general at Fort Russell from John Elliott of Liverpool, England, who is seeking information regarding his brother, Thomas Elliott or Thomas Howard, who was a soldier at Fort Laramie in 1885. The letter is interesting because there has been no commanding officer at Fort Laramie during more than thirty years, the post having been abandoned by the army in 1890.

## Legislative Side Lights

BY HUGH NUGENT FITZGERALD  
News Staff Correspondent at The 38th Legislature

AUSTIN, Texas, March 14.—

"This country is a hell of a success," said Uncle Joe Cannon, patriarch of congress when he arrived through of Louisville, and then the most noted of all the political patriarchy who are in the land of the living, added these words, "And I am going home to rest. That's what I'm home to do."

All the members of the 38th Texas Legislature thought they were going home to rest on the night of Wednesday, March 14. They are not.

Governor Neff changed their individual programs. He moved a proclamation convening the legislature in special session at 10 o'clock next Thursday morning. He chided the lawmakers in his proclamation message. He said that the senate had smothered to death the quo warranto or ouster bill.

Now he wants the lawmakers to provide sufficient funds "by every means known to the constitution and statutes of Texas" to properly maintain all the governmental institutions; to make appropriations within the available revenue; to vest the courts of Texas with effective authority to remove from office any officer who has "willfully and corruptly failed and refused to enforce the laws as will make effective the provisions of the Texas constitution which prohibit the manufacture and sale of intoxicating beverages; and lastly, to consider and act upon such matters of vital constructive importance as may be presented by the governor.

They Had Plans  
The lawmakers had been guessing for two weeks or more as to whether the session would be held in May or June or July. They had made their plans to return to their homes after the adjournment of the regular session, to place their houses in order, to give personal attention to their professional duties, their mercantile pursuits, their farming interests, their newspapers or their schools, disposed. There is no indulgence in such now, and those who go home will be compelled to pay the long haul or the short haul both ways. It is some long haul from Austin to Texline or from Austin to Brownsville, or from Austin to El Paso, or from Austin to Texarkana.

And all this reminds the writer that the senate and the house conferees came together late Friday night and agreed to a two per cent tax on the gross production of sulphur. They had overlooked brimstone. There had not been a message introduced during the entire session "aperitum" to brimstone. A sulphur tax of two per cent instead of three appeared to have won the favor of all the legislative minds.

Only Three Bolts  
There have been only three "bolts" shot out of a clear sky by the governor during the winter months. He shot two when he named the railroadroad commissioners. All the guessers and all the prognosticators were paralyzed. All but the defeated rest unless they pay the long haul applicants admitted that he had or the short haul or the fifty-haul

made selection of two excellent gentlemen, but they were staggered when the news was broken to them. They had never met the excellent gentlemen in political conventions, hotel lobbies, hard fought campaigns, or elsewhere. They agreed that they are amiable and irreproachable when it comes to make in the political arena before they are known in political circles. As commissioners, Nabors and Splawn have nearly two years to get acquainted and as they are certain to be candidates before the people for election this will give the politicians ample time to get acquainted with two of the "bolts" shot from a clear sky.

These were the bolts. The Jupiter bolt came out of a clear sky Saturday morning. It had a touch of sulphur and carried with it the incense of burning brimstone, more especially where the accusation of "smothering" lit up the message.

Uncle Joe Cannon is right. "This country is a hell of a success," unless, this is another age of miracles, the 38th will be grinding in session Thursday morning. This will let loose tax measures galore.

A state income tax bill may be introduced, and Dinkie of Hunt may hold the center of the stage while the agitated pocketbooks of vox populi hold the street corners and make a loud noise.

Patience of Cass may come back with his intangible tax bill, and as a companion piece, a state income tax bill that will not interfere with the product from the mental workshop and the calculating gallery of the gentleman from Hunt.

Speaking of Pope  
Read between the lines, the message says, "new sources of revenue have not been tapped," or if they have been tapped, the vault has been done gingerly and with a blunt kick.

And there is the gentleman from Nueces county. He is the author of the Pope anti-text book bill. That is not its name, but it provides for a sweeping repudiation of all the school books adopted by the late text book commission which went out with a lower house disapproval and a severe spanking.

Which way is the Pope bill headed?  
Will it be quibbled and returned to the 38th?  
If so, what will happen to it?

All the measures for the strengthening of the 18th amendment and the Volstead act and the Dean law will be introduced as well as the Ouster bill which unless the message is misleading, calls for the removal after trial of all officers unless the constitution intervenes, who have been found guilty of neglect of duty, or failure to enforce all the laws to be found in the fat statute books of Texas.

## BABY ORPHANED BY 2 SLAYINGS

Goose Creek Painter Kills Wife, Suicides

HOUSTON, Texas, March 14.—A baby, boy, fourteen months old, is an orphan today as the result of a double tragedy at Goose Creek, when John Graff, 27 years old, a painter at the Baytown refinery, instantly killed his wife, Marie, 19 years old, with a shotgun, and then shot himself with a pistol. Graff lived about three hours.

Neighbors said the couple had been separated for some months. Mrs. Graff had been working in Houston, returning to Goose Creek each Sunday to be with her baby, left with neighbors. Her husband shot yesterday. Neighbors went to Graff's house and discovered the shooting. Graff is survived by his parents, Mr. and Mrs. John Graff, three brothers and two sisters, all of whom live at Goose Creek. Mrs. Graff is survived by her parents, Mr. and Mrs. Joe Gurnick, and a brother, Vencel, who live three miles from Duette, Texas.

DISCOVER BOY, 6, HAS THREE SETS OF TEETH  
NEW YORK, March 14.—Three sets of upper teeth were found in the mouth of Joseph Derama, 6, Newark, when he complained to his mother that "his mouth was awful full."

Several dentists examined and refused to treat him. Finally he was taken to Dr. Edwin Betts, specialist in dental surgery. Dr. Betts said the first set were the boy's baby teeth, the second his secondary and the third a phenomena which unless removed would disfigure his face and give him the appearance of a snark's. X-ray examinations were made and treatment was started.

SAYS WIFE'S SERVICES WORTH \$2,000 MONTHLY  
LOS ANGELES, March 14.—The cash value of a wife's services has at last been determined providing the contention of H. H. Neff, who is suing the Abbott-Kimsey company of Venice for \$10,000, alleging their responsibility for the breaking of his wife's ankle is sustained. Some time ago Mrs. Neff broke her ankle on the Venice ballroom. She sued for \$1,000 and got it. Saturday her husband sued for \$10,000, alleging she was disabled for five months. He values her services at \$2,000 a month.

## Quick Quaker Oats

Cooks to perfection in 3 to 5 minutes

## Two Styles Now

One is almost ready to serve

Quaker Oats comes in two styles now. And both styles excel any other oats you know. Quick Quaker has been perfected by our experts. It cooks in from 3 to 5 minutes—the quickest-cooking oats in the world. And it cooks to perfection.

Both have that super-flavor

The world-wide fame of Quaker Oats is due to a super-flavor. It is flaked from queen grains only—just the rich, plump, flavory oats. We get but ten pounds of these delicious flakes from a bushel.

Oat lovers everywhere send here for that flavor. Quick Quaker has that same flavor. It is flaked from the same queen grains. But the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

So Quaker Oats now offer two great advantages. They offer a flavor which no other oats can match. And now in addition, if you wish, oats that cook in five minutes or less. Get either kind you want. But don't, if you love oats, get less flavory oats than Quaker.

## GHOST OF GIRL SEEN IN MINE

Insist That Spectre Appeared  
in Drifts

EUREKA, Utah, March 11.—Stories circulate here from time to time of ghosts in the underground workings of the Tuttle Standard mine, and the latest is that the specter of a child dressed in white frock and white shoes has appeared in the drifts deep in the bowels of the earth.

The miner, as a rule, is a superstitious individual, and officials of the Tuttle Standard scoff at the tales of spooks in their mine. On one occasion recent miners came to the surface with reports that a ghost had been seen. Investigation developed nothing, and belief was expressed that what they really saw was one of their number at work clad only in his undergarments.

An old Mexican miner of Eureka often tells of the time when he and other workers saw a ghost of a small boy. It first appeared when the men were at lunch, according to this authority, and efforts to capture the specter were without result.

Another ghost story revolves around a miner who was fatally injured while at work. This specter is described as of a social disposition, for miners say it rules down in the cage and then disappears in the drifts.

In an Oklahoma mine several years ago, thirteen miners died as a result of a caving. Survivors told of the apparition of a black dog which dashed back and forth, supposedly to warn the workers of approaching danger. In connection with this disaster there is supposed to be the specter of a woman, attired in black who patrols the path from the one of the mishap to the underground parlor, where the bodies of the dead miners were taken.

## Hiram Johnson Goes to Sea For the First Time

NEW YORK, March 14.—Senator Hiram W. Johnson of California today brushed politics and potential adversaries out of his head for the first time in years and started on his first voyage across the Atlantic.

Accompanying Senator Johnson were Mrs. Johnson and their son, Hiram W. Jr. And right across from them on the steamship George Washington was Alexander P. Moore of Pittsburg, newly appointed ambassador to Spain.

"I hope I don't get seasick," said the senator, eating the fruit and smelling the flowers which filled his suite. "I'm a land-lubber, never been to sea before." Then Ambassador Moore assured him he had voyaged on the George Washington before and that she rode smoothly.

Senator Johnson said he didn't know how long he would be abroad or where he would go. "I haven't had a rest in twenty years and I think I'll about time I had a little enjoyment. I'm 56 years old and don't feel so bad."

Sticks Finger in Hole Until

SPRINGFIELD, Mass., March 14.—The boy who stood on the burning deck should gracefully give way to Tony Scannapieco, 15, of Springfield. Tony and his baby sister were alone in the kitchen of their home when a part of the gas pipe overhead became loosened and dropped to the floor, releasing a flood of gas in the room, where a hot fire was burning in the range—they evidently have plenty of coal in Massachusetts.

Tony quickly sensed the situation, and not a moment stopped or stayed he. Mounting the hot stove he stuck his finger into the hole in the pipe and held it there while his sister made the telephone operator understand there was something wrong and sent the police, phony not a bad second to heroic Tony.

The number of undergraduate nurses, who perform the bulk of the nursing work in the hospitals, dropped as follows in the past five years: 1817, 255; 1918, 290; 1919, 233; 1920, 210; 1921, 149; 1922, 131.

## Port Arthurians Lose The After Brilliant Scrap Ending Series

THEY'RE AT IT ALL OVER THE SOUTH

**Beaumont Court Scene of Most Bitter Basket-  
ball Battle of Year; Kennedy's Boys Cop  
Crown and Game in 18-8 Finish.**

By BILL ARCHER

BEAUMONT, Texas, March 14.—Exhibiting the hardest fight they have shown this season, but playing an unconquerable foe, Port Arthur's high school basketball team went down in defeat here last night, 18 to 8, while Coach Marvin Kennedy's proteges, more formidable than they have seemed this season, copped the Six-City League title and the silver trophy offered by a local newspaper.

It was the most thrilling game, perhaps, the fans in Beaumont have seen this season; and those who missed it in Port Arthur took from their own pleasure a scrap—a scrap that started at 8 o'clock and lasted for 40 minutes, with "pep" and "ginger" in every second. Culp and Sullivan played sterling roles for the home boys last night; but Beaumont's goalers and guards held them in check. It seemed that every time they nabbed the ball, some Beaumont man would pounce upon them in full form to send them sprawling to the floor in a writhing, scuffling mass of muscle and brawn, else the ball would go flying at the Port Arthur goal in a vain effort to knock the count.

Port Arthur played in hard luck at times during the clash. Time after time the oval, covered by both contingents, would be ringing just around the edges of the basket, only to fall beyond the realm that counts; and there were times when leg-distance shots spurted across the narrow-gauge court to hit just beneath or at the side of the goal, uncredited. Bourgeois and Merriweather played into the limelight for the Beaumont team. Bourgeois, the "flying Frenchman," ran wild for a time during the melee, but eventually he strung out a series of counts, and probably cost the locals the second encounter of the series, and the series as well.

The Frenchman proved a stumbling block in the path of several of the Port Arthurians, and he was directly responsible for several brilliant breaks in the game that tore to pieces the teamwork of Coach Smith's proteges.

The whistle sounded at 8 bells, and, like two mighty armies, the two high school clubs tore into each other. Less than a second of play had passed when the sidelines addressed themselves thus:

"It's going to be a real fight!" "So it was. Like tiger after panther, the two teams hurled themselves upon each other to become a scuffling, scuffling, heavy-breathing, clashing mass of human flesh, each fighting to wrest the ball from the other's power.

To lose the game last night was no disgrace for the Port Arthurians. The fighting spirit they showed—the fighting spirit that never waned during the long 40 minutes did them credit, and the score only went to the team that displayed the better generalship at handling the ball.

A "stepping" forward and a couple of merrily passing on the Beaumont side piled up an early lead, which the Port Arthurians equalled once, but which they never overcame. Beaumont (18) Pos. Pt. ## MIAMI BIDS FOR BIG TIME

By BILLY EVANS

MIAMI, Fla., March 13.—Seven major league ball clubs are training in Florida this spring. That is some kind of a record in itself for one state to boast of.

In five years Florida hopes to be able to tell the world that every major league club will do its training in this state. That is the goal of the state, as well as the southern states have lured their bank rolls to the sunny south.

It is no wonder but that Florida is the ideal climate of the south. The weather is just what the doctor ordered for a team. The state is a beautiful one, and it is a beautiful one.

## ON THE FIRING LINE

With  
TAB

Beaumont won the title; Port Arthur was defeated. But none of it happened until a packed gallery and ground floor had witnessed one of the most thrilling court battles and possibly the best high school basketball scrap that has been watched in ages past around this section.

There were tussles in every round; fight in every second and "pep" from start to finish. It was a decisive loss for Port Arthur, but when Kennedy's proteges had walked off the floor victorious, they realized they had conquered a quintet of players that had blood in their eyes.

Sullivan did his best: Culp followed close in his wake. But all the breaks of the game went against the home boys. There were at least a dozen balls that clung just at the edge of the goal to fall beyond the realm that counts, and occasionally he strung out a series of counts, and probably cost the locals the second encounter of the series, and the series as well.

Now comes Jack Dempsey, the "brawler" among the heavies, and he who wears the crown, wearing, yes, even shouting: "I'll battle Luis Firpo anywhere, any time, any place. Name it." And perhaps he will.

But quite unsexily lies the head that wears a crown, even among heavyweights. And Jack has a right to make his blarney and long at the present time, for not many men ago he stood toe to toe with the same Bill Brennan in the same famous rope arena and swapped slug with ye stepping-stone to fame for 12 long periods.

The battle ended with Jack Dempsey awarded the judge's decision. And now comes the savage Firpo, untrained in the culture of tight and left jabs, mistimed in the art of exchanging lefts for the sake of a quick right—and he knucks the Gotham stepping-stone for a row of mock turtles in the same 12th round that Dempsey failed to end the battle in.

There was rumor abroad in the land of Sportland that old Bill, the famous Chicago warhorse, was to take a dive for Firpo. He took one—but not willingly. Behind the "dive" he took was 220 pounds of savage Argentine brawn, goaded on by the long wish of thousands of enthusiastic followers in his native land and abetted by the unsympathetic but unquarrelsome attack of battle only familiar to the giants of old.

The Chicago warhorse hit the mat only after Firpo had hit him hard and heavy; and the weight of his blows weighed heavy on his mind; so, heavy, perhaps, that Old Bill was groggy.

It's time for Jack to arouse from ill-fatedness; it's time for the heavyweight crown holder of the champion allibers to spring Dempsey, was to take the prize. But the fact that the Argentine was bowled over the same and only fellow who ever stood face to face with Dempsey himself and was still standing when the final gong sounded "time out."

The seven teams now training in Florida are so conveniently located in relation to each other that practically every jump can be made by motor if so desired, and in a very few hours.

The east coast of Florida is rather jealous of the activities of the inland cities and the west coast as to being ball. Not a team will train on the east coast this year. This despite the fact that the climate here is perfect for conditioning ball clubs.

Next year it is said that Jacksonville, once a baseball center; Ft. Augustine, Daytona, West Palm Beach and Miami will make a bid for major league teams.

West Palm Beach has already made a start in the right direction. Realizing that a good ball park next to the climate is the best possible inducement, that thriving city is in a talk with several members of the West Palm Beach Chamber of Commerce recently learned that the city had set aside \$300,000 to build one of the best baseball plants in the state.

With a good ball park to offer, in addition to the best of weather, West Palm Beach confidently expects to house a major league club next year and gets the advertising that naturally results.

Then Mr. Florida in five years hopes to be the training ground for the two major league circuits.

## SPEEDWAY MAY BE OPENED BY NEXT 10 DAYS

Hoskins After Bids On a Grandstand

By TAB

Racing in this section of the country—real auto races with some of the fastest dirt track cars in the southland in evidence to participate, is going to start in earnest next month.

That's the promise made by Manager Hoskins of Houston and his assistant, Brownard, who drove over here late yesterday afternoon and went over the grounds at the Port Arthur-Beaumont Speedway.

"I think things will be in good condition about April 8th for some races," Manager Hoskins indicated, "and I feel sure that by the next 10 days some of the boys will be able to get on the track to test it out."

While he was in the city, Manager Hoskins mentioned through advertising to be found in other sections of this paper the fact that bills would be received at once for the construction of the race-track fence and grandstand. The grandstand will be a modern structure, and the fence will be so arranged as to obscure the highway which passes alongside the track but a short distance away.

"The whole thing will be better than the Houston Speedway," Manager Hoskins intimated, calling attention to the fact that the track being constructed here has a nine-foot embankment at the curves, and has elongated curves, whereas the Houston Speedway is banked to the extent of only six feet on the curves and has a quick, decisive twist at the ends that drivers will not be confronted with down here.

Many local track aspirants are anxiously awaiting the time when they can "set out" on the new speedway, and the present indications are that Port Arthurians and all the fans in this section will be able to witness some snappy affairs during the season when it starts.

Workmen are engaged at the scene today rolling the turf, and the scrapers and rollers will have a few other turns at the track within the next five or ten days before it can be used.

## Firpo's Victory Cause Of Great Rejoicing in His Native Argentine

Buenos Aires, March 11.—A huge crowd yelling in a frenzy of joy, spilled through the broad avenues of Buenos Aires in the greatest spontaneous celebration in the history of South America.

Fifty thousand people, singing, cheering, shouting, turned themselves loose when the United Press flashed the news over the cables that Luis Angel Firpo had knocked out Bill Brennan in the twelfth round of their fight in New York.

While this was going on in Buenos Aires, crowds in every city, village and hamlet through Argentine were tending the round-house round reports, and going half mad with joy when they learned that Firpo was the winner.

**Open Tourney Today**

## EXPORTVILLE ENJOYS A BIG PRACTICE DAY

Two New Arrivals Added to Lists

Special to The News

BEAUMONT, Texas, March 14.—The best practice day of the season thus far was recorded in Exportville yesterday afternoon, when "Boss" Ballington and Manager Bob Tarleton found a couple of additions out on the playing field, and watched the boys go through the mill at work before a host of "rail birds."

The newcomers are none other than the erstwhile Stupp and Morris. The former built from the International League, where he has been playing ball with Toronto, while Morris claims to be a native domete in Kansas City, both boys arrived unannounced, and where the management found them hard at work when he approached the field.

Jacobus has not yet arrived, but both this player and Kenzie Kirkham are expected on the field at almost any moment now, and in fact, fanfare anticipates the appearance of Kenzie this afternoon all dolled up in a uniform.

Officers of the ball management have been moved from the Kyle building to the San Jacinto building, and yesterday afternoon Manager Bob Tarleton was spending a great bit of his time arranging his tickets, spreading out his decks and superintending the arrangement of his office fixtures in general, while a couple of workmen were kept on the run.

**LAYTON SHOWING UP**  
MILWAUKEE, March 14.—John Layton, the national champion, looks like a sure winner in the national championship of the International Championship of the Interstate Three-Cushion Billiard league. He went into the lead last week by winning every one of his games and he has only four more games to play, all on his last night at St. Louis.

Otto Heibel has an outside chance of beating Layton if he wins every one of his eight remaining games, four of which are scheduled at home, and four on the road.

**GIBSON COMES IN**  
ST. PETERSBURG, Fla., March 14.—Frank Gibson, the last of the Boston Braves holdouts, has agreed to terms, and is expected to arrive here Saturday. "Stuffy" McInnis, new first baseman is expected to get here today.

**RYAN TAKES POST**  
MADISON, March 14.—John J. Ryan is officially installed as football coach at the University of Wisconsin.

Ryan, selected last Tuesday, is 35 years old and is moving to Madison at once.

**MOODY NINE WINS**  
ROGERS, March 14.—The local high school baseball team lost to the Moody club here by a score of 5 to 1. Lewis and Hatter of the visitors were the stars of the game, which was interesting all the way through.

**'KIRK' STILL COACH**  
BROWNSWOOD, Texas, March 14.—Arnold Kirkpatrick, former Texas football star, has signed a contract as athletic director at Howard Payne College for the 1934 season.

**Fiery, Itchy Skin  
Quickly Soothed  
With Sulphur**

Menthos-Sulphur a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing soothes fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning itching of disfigurement. Menthos-Sulphur always heals eczema right up.

## RICKARD TIRES OF RUMORS ON 'FIXED SCRAPS'

Must Prove it Next Time, He Says

By HENRY FARRER

NEW YORK, March 14.—Whippersnappers about fixed fights, and funny decisions in Madison Square Garden have been more or less regular this season, have caused Tex Rickard to reach for his revolver when he hears "The next time anything is said about a fight not being on the level in the Garden, I am going to ask for proof and then they will see how fat they get," Rickard said.

Tex admitted that he had his suspicions aroused several times but he investigated and felt sure that there was no truth in the reports. He spoke of the betting on the Britton-Walton fight which caused him to make an immediate probe.

"They are saying that Bill Brennan took a dive against Firpo. If anyone could have seen Brennan yesterday they would never have doubted for a second that the bout was on the level. Brennan's left arm was bruised black and blue from the shoulder almost to the wrist, his face was puffed and his lips curled about in a big lump on the back of his neck. If he took a dive and accepted all the beating before he took, he ought to have his sanity questioned," Rickard said.

The newcomers are none other than the erstwhile Stupp and Morris. The former built from the International League, where he has been playing ball with Toronto, while Morris claims to be a native domete in Kansas City, both boys arrived unannounced, and where the management found them hard at work when he approached the field.

## FROM CADDY TO MILLIONAIRE'S PRO-THAT'S LEO DIEGEL'S RISE

Golf professional to a millionaire pupil.  
How would you like that job at ten thousand per year and extras?

Not a bad job.

That is the position now held by Leo Diegel, former Detroit caddy, now one of the country's greatest golf players.

Diegel is under contract to Edward H. McLean, Washington millionaire. The Detroit youngster made a hit with the Washington capitalist by his play and appearance. When McLean decided a professional was needed to look after the private course on his Washington estate, he selected Diegel.

Diegel receives \$10,000 per year, and all expenses while on the road. Since McLean travels widely, Diegel doesn't spend much on expenses at home. At present McLean is wintering at Palm Beach, and Diegel, of course, is among those present.

Commenting on the knockout of Brennan by Firpo last night, Dempsey said: "I knew and have said that Firpo was a good hitter. Brennan is not as good as he used to be but still is mighty tough and Firpo must have been a fighter to stop him. I am ready to fight any man any time a promoter can put the bout on in a satisfactory manner. Firpo, of course, is not barred."

**PIRATES EN TRAIN**  
HOT SPRINGS, Ark., March 14.—The rest of the Pirate squad which left Pittsburgh last night is expected here Thursday. Pitcher Whitley Glazner twisted his foot in running, and Pitcher Jim Hazy is on the bench, nursing a "charley horse."

One bottle of Eucalypti Remedy is guaranteed to be enough for any case. All druggists are authorized to refund your money if it fails.—adv.

**'BENTON CASE CLOSED'**  
GULANNA, Florida, March 14.—There was unusual cheer in the Reds camp today when word was received that Judge Landis had said the Benton case is closed—that Benton, who played with the Reds in spite of his club, falls to make good in the major league. Missouri's minor league record has always been well above .500, while his work as a pitcher at West Virginia Wesleyan attracted many scouts.

Winners of yesterday's games were Fairmount College, Wichita, Kans.; Southwestern State Teachers College, Weatherford, Okla.; Union Club, Belvidere, Ill.; Robert L. Clow, American Legion, Lees Summit, Mo.; Tabernacles, Kansas City; Kansas State Teachers College, Emporia; Larry Simon A. C. Hollywood, Calif.; McPherson College, Kansas; Two Harbors All Stars, Two Harbors, Minn.

**TWO RED SOX SICK**  
HOT SPRINGS, Ark., March 14.—Two members of the Boston Red Sox are under a doctor's care. George Murray is laid up with a sore ankle, and Carl Shuman has a sore ankle. Shanks has reported and is at work.

**TRINITY BEATS GRUBBS**  
WAXAHACHIE, Texas, March 14.—Trinity University defeated the Grubbs Vocational College of Arlington, 14 to 8, in the first baseball game of the season here yesterday. The affair was loosely played, a total of twenty hits and ten errors being registered.

**SOX DEFEAT GOOFS**  
SEGUIN, Texas, March 14.—The White Sox regulars beat the Goofs in five innings, 1 to 0. The Blankenship brothers looked so good on the mound that they probably will be used in Saturday's game at San Antonio with the Giants.

**GRISBY HITTING HARD**  
AVALON, Cal., March 14.—Denver's Grisby, a recruit from Sapulpa, is doing some hard hitting for the Cubs. He got two home runs in a seven-inning game.

**HEINE CLINCHES POST**  
ALBUQUERQUE, N.M., March 14.—If Heine Manush, recruit outfielder from the Western League, continues to display the talents he has exhibited in early practice he will be sure of a job with the Detroit Tigers for the coming season. Manager Cobb let it be known today, Manush will not be able to supplant Cobb, Veach and Heilmann in the outfield but he should be able to win one of the reserve berths in the garden.

**MOODY NINE WINS**  
ROGERS, March 14.—The local high school baseball team lost to the Moody club here by a score of 5 to 1. Lewis and Hatter of the visitors were the stars of the game, which was interesting all the way through.

## MARKETS

**WALL STREET JOURNAL**  
NEW YORK, March 14.—Stocks today threw aside all traces of hesitancy and the forward movement proceeded vigorously in many sections of the market.

With cotton at new high levels for the season in response to record consumption for February, with optimistic reports continuing and with the annual statement of various corporations emphasizing improvement in earnings last year the general list manifested almost uniform buoyancy. While bullish sentiment was the dominating note of the whole session, the exceptions of any character took place. Stocks moved steadily ahead on a fairly moderate volume of dealings and an unimpaired technical position despite the extensive nature of the upward swing over the last few weeks. Price movements suggested that neither the industrial nor the railroads have measured the full scope of the business recovery and that no immediate indication of the primary upward trend was in sight.

## Even Girls in Prison Desire Powder Puffs

NEW YORK, March 14.—The importance of powder puffs to the girls in prison was described by Magistrate J. M. Duffy. Salvation Army humanitarian workers, who now is directing this branch of the organization's work in New York. She did similar work in Detroit 10 years ago.

"I do not believe in encouraging paint and powder as an aid to beauty," she said, "but I do know a girl can invariably testify and take care of herself with more composure. Did you ever think of the effectiveness of a powder puff in preventing tears on the witness stand?"

"A woman does not look her desired to be attractive just because she is in jail and there are no men to look after her. When in solitary confinement she is a woman just the same and a mirror and curling iron are her best friends. The state does not provide curling irons and very often does not provide mirrors at least not the kind a woman wants."

## INDIANAPOLIS JUDGE 'PURGES' BURLESQUE

INDIANAPOLIS, March 14.—Here legs and bare backs were ruled off the burlesque stage here by City Judge Wilmett.

A pair of short bloomers, half hose, slippers and a corset cover, taping far down the back, are not enough for a girl to wear.

Wilmett convicted Jessie McDonald, a chorus girl of indecency. The Rev. Charles Winders, who attended the show twice in his effort to close a burlesque theater, testified that Jessie's clothing revealed more than he conceived, and that Jessie's dances were "suggestive."

## Beaumont to Demand Switch Track Removal

**Special to The News.**  
BEAUMONT, Texas, March 14.—Beaumont at least is going to make another attempt to cope with its grade crossing problem.

This time city officials are shooting at the Gulf Coast instead of the Southern Pacific.

Yesterday an ordinance was presented which, when passed, will compel the Gulf Coast to remove switch tracks on Bowie between Park and Main streets.

The act calls for the removal of the tracks within 90 days and that work of removing it must begin within 30 days following passage of the ordinance. If the work is not completed by (6) days then a fine not exceeding \$200 will be levied by the city.

City hall forecasts say the next offensive in the grade crossing war will be against the Southern Pacific tracks at Main, Pearl and Orleans streets.

## Congregational Men Make a Permanent Organization at 'Feed'

Decision to form a permanent organization for the men of the First Congregational church was made at the second annual banquet of the men of the congregation Tuesday night, attended by about 30 men. It was decided that the permanent organization should be completed at a gathering of the men of the congregation within the next 90 days.

The feature of the gathering Tuesday night were the six five minute talks and the addresses by Rev. W. I. Caughran, pastor of the church. The short talks were on the church as a corporation, by A. S. Bailey; as a school, by W. J. Steck; as a family, by G. R. Halliwell; and as a brotherhood, by Sam Schmink.

Hallmarks and principles of the Congregational denomination were stressed by Rev. Caughran in his address, given at the close of the evening. The dinner was prepared and served by the women of the church.
